

NAWIC

August 2015

Message From Your President

Fall is just around the corner and after the hot summer we've had, I'm ready for the rain and seeing the leaves as they change colors.

Susan is putting together a fun potluck picnic at Bush Park with our spouses, significant others and friends in lieu of our August meeting. It'll be a fun, casual way to wind down summer and this NAWIC year. I'm looking forward to being able to visit with everyone and their families.

At our July general meeting we began ramping up for the 2015-2016 year. Since this is the time of year we normally start passing around the committee sign up sheet, I thought it would be a good idea to go through each of the committees and discuss what each committee does. We've already had a few members sign up. WAY TO GO LADIES!! We also went through the chapter Standing Rules and Policies and updated them and made a few changes. I have submitted the revised Standing Rules to Judy DeWeese the National Bylaws Chairman for approval and as soon as I have that I will email them out to everyone for the required 30 day notice prior to our vote at our September meeting.

FOOD FOR THOUGHT

To test your mental acuity, answer the following questions (no peeking at the answers!):

1. Johnny's mother had three children. The first child was named April. The second child was named May. What was the third child's name?
2. A clerk at a butcher shop stands five feet ten inches tall and wears size 13 sneakers. What does he weigh?
3. Before Mt. Everest was discovered, what was the highest mountain in the world?
4. How much dirt is there in a hole that measures two feet by three feet by four feet?
5. What word in the English language is always spelled incorrectly?
6. Billie was born on December 28th, yet her birthday always falls in the summer. How is this possible?
7. In British Columbia you cannot take a picture of a man with a wooden leg. Why not?
8. If you were running a race and you passed the person in 2nd place, what place would you be in now?
9. Which is correct to say, "The yolk of the egg is white" or "The yolk of the egg are white?"
10. A farmer has five haystacks in one field and four haystacks in another. How many haystacks would he have if he combined them all in one field?
